New York Money and Stock Market-

caused a tumble to 113, when the downward course was arrested by the amoninement from Washington that the Funding Bill had been defeated in the House. Under this mows the market quivered for a time between 1134(2)1134; but soon it was reported that the difficulties between Franco and Prussla were amicably adjusted. The wildest excitement followed, and the market plunged downwards under the heavy sales of frantic operators, and did not stop until 112 was reached. At the close there was a recovery to 1124, with a strong market. Carrying rates 425 per cent. Clearances \$122,000,000. Exports \$300,000.
